EDUCATION

Ph.D. Oceanography, Texas A&M University Jan 2020 - Aug 2024
Committee: Robert Hetland (co-chair), Henry Potter (chair), Spencer Jones, Scott Socolofsky
Dissertation: Numerical and physical mixing in simulations of submesoscale baroclinic instabilities over sloping bathymetry

B.S. Civil Engineering, University of Maine Aug 2016 - Dec 2019
Minor: Mathematics
Honors: *cum laude*

RESEARCH INTERESTS

Spurious/numerical mixing, coastal/regional ocean modeling, submesoscale dynamics, river plume dynamics, estuarine exchange flow.

RESEARCH EXPERIENCE

DOE SCGSR Fellow Dec 2023 - Present
Los Alamos National Laboratory

- Developed an unprecedented submesoscale eddy-permitting mesh with the model Prediction Across Scales - Ocean (MPAS-O) in the Gulf of Mexico.
- Assessed MPAS-O's representation of submesoscale coastal processes over the Texas-Louisiana (TXLA) Shelf.

Graduate Research Assistant Jan 2020 - Present
Texas A&M University: Dept. Oceanography

- Characterized numerical mixing in two-way nested ROMS simulations over the TXLA shelf.
- Developed ROMS simulations of idealized submesoscale baroclinic instabilities.

Student Research Assistant May 2017 - Dec 2019
UMaine: Dept. Civil Engineering

- Analyzed the environmental impacts of living shorelines and coastal armoring structures on pocket beaches in Southern Maine.
- Participated in the construction, deployment, and management of an oceanographic mooring system for the Sensing Storm Surge Citizen Science Project. (<http://sensingstormsurge.acg.maine.edu/>)

Engineering Research Assistant Aug 2018 - May 2019
UMaine: School of Marine Sciences

- Characterized inertial oscillations in the Gulf of Maine using observational current data.

Research Experience for Undergraduates

May 2018 - Aug 2018

Texas A&M University: Dept. Oceanography

- Characterized salinity structure in Copano Bay, TX using ROMS output
- Cruise: R/V Pelican (3 days). Cocodrie, LA, to Flower Garden Banks National Marine Sanctuary in the northern Gulf of Mexico

2. **Schlichting, D.**, Lieberthal, B., & Huguenard, K. (2017). Vegetation farms as a solution to coastal erosion for Saco, Maine. Sustainable Ecological Aquaculture Network Undergraduate Research Symposium, Walpole, ME, Aug 16. *Poster*.
1. Coastal and Estuarine Research Federation Conference (2017). Providence, RI, Nov 5-9. *Attended*.

SERVICE & MENTORING

Mentor: Kaila Uyeda (Postbac Researcher)	Aug. 2023 - Dec. 2023
Reviewer: <i>Journal of Geophysical Research: Oceans</i> ($n = 1$)	Aug. 2023 - Present
Judge: Student Research Week	Spring 2023
NSF PROGRESS Mentor - Milly Hency	Fall 2022
Judge: Environmental Geosciences capstone (GEOS 405, TAMU)	Spring 2022

FUNDED RESEARCH

DOE SCGSR fellow ($\sim \$30,100$)	Dec. 2023-Present
Oceanography Graduate Council mini-grant ($n = 3$, \$1300 total)	2021

HONORS AND AWARDS

Louis and Elizabeth Scherck Scholarship ($n = 4$)	2020 - 2024
NSF S-STEM Scholar ($n = 2$)	2020 - 2021
Frank Sleeper - Sawyer Scholarship	2017 - 2019
Best civil engineering capstone project	2019
Chi Epsilon Member	2019
NSF REU Scholar	2018
Alpha Tau Omega Memorial Scholarship	2018

SKILLS

- Modeling: ROMS (proficient), COAWST (proficient), MPAS-O (basic), E3SM (basic)
- Programming & Related: Python (proficient), \LaTeX (proficient), Markdown (proficient), Matlab (intermediate), Bash (intermediate), Github/git (intermediate), FORTRAN (basic)
- Ocean observations (basic): HOBO water level and conductivity sensors, ADCPs, ADVs
- Civil engineering (basic): Concrete design, HEC-RAS, AutoCad, Revit

PROFESSIONAL SOCIETIES

- American Geophysical Union
- Association for the Sciences of Limnology and Oceanography
- The Oceanography Society
